

## APPLICATIONS

**Eni Antifreeze Eco Ready** is an amine, phosphate and nitrite free and ready to use engine coolant based on propylene glycol.

## CUSTOMER ADVANTAGES

- Eni Antifreeze Eco ready is a propylene glycol based product that provides a high level of environmental protection even in case of leakages and, above all, its low toxicity limits the threat to living beings.
- It is a "long life" liquid whose composition and characteristics are particularly stable. It can therefore be left in the circuit throughout the year.
- It has long-term protection against corrosion for all materials used in the engine and radiator construction, such as cast iron, aluminium, copper and solder alloys as well as a good compatibility with hoses, seals or plastics.

## SPECIFICATIONS & APPROVALS

- ASTM D 3306
- CUNA NC 956-18 (ed. '04)
- BS 6580:2010

## CHARACTERISTICS

Properties	Method	Unit	Typical
Appearance	-	-	clear
Colour	-	-	turquoise
Density at 15°C	ASTM D 1122	kg/m <sup>3</sup>	1050
pH	ASTM D 1287	-	8.3
Boiling point	ASTM D 1120	°C	105
Freezing point	ASTM D 1177	°C	-35

## WARNINGS

- Mixture with other coolants is not advised.
- Please observe carefully manufacturer's specification on product.

## HANDLING INFORMATION

- The product must not be diluted with water before use.
